

# GANDHINAGAR

A scenic view of Gandhinagar in Gandhinagar, Gujarat, India. The foreground shows a concrete wall with a row of colorful flags (red, green, white, purple, red, yellow, blue, white, orange) flying. The middle ground is a large body of water. In the background, a city skyline with buildings and trees is visible under a clear sky. The text "GANDHINAGAR" is overlaid in large white letters.

# Annual Temperature Trends

# Observations

General Temperature trends suggest that the region has witnessed decrement in average temperature over the last 4 decades

Highest and lowest temperatures per decade have been constant since 90s.

Temperatures varied between 30.5°C - 34°C, with average lying in between 31.5°C - 32°C.

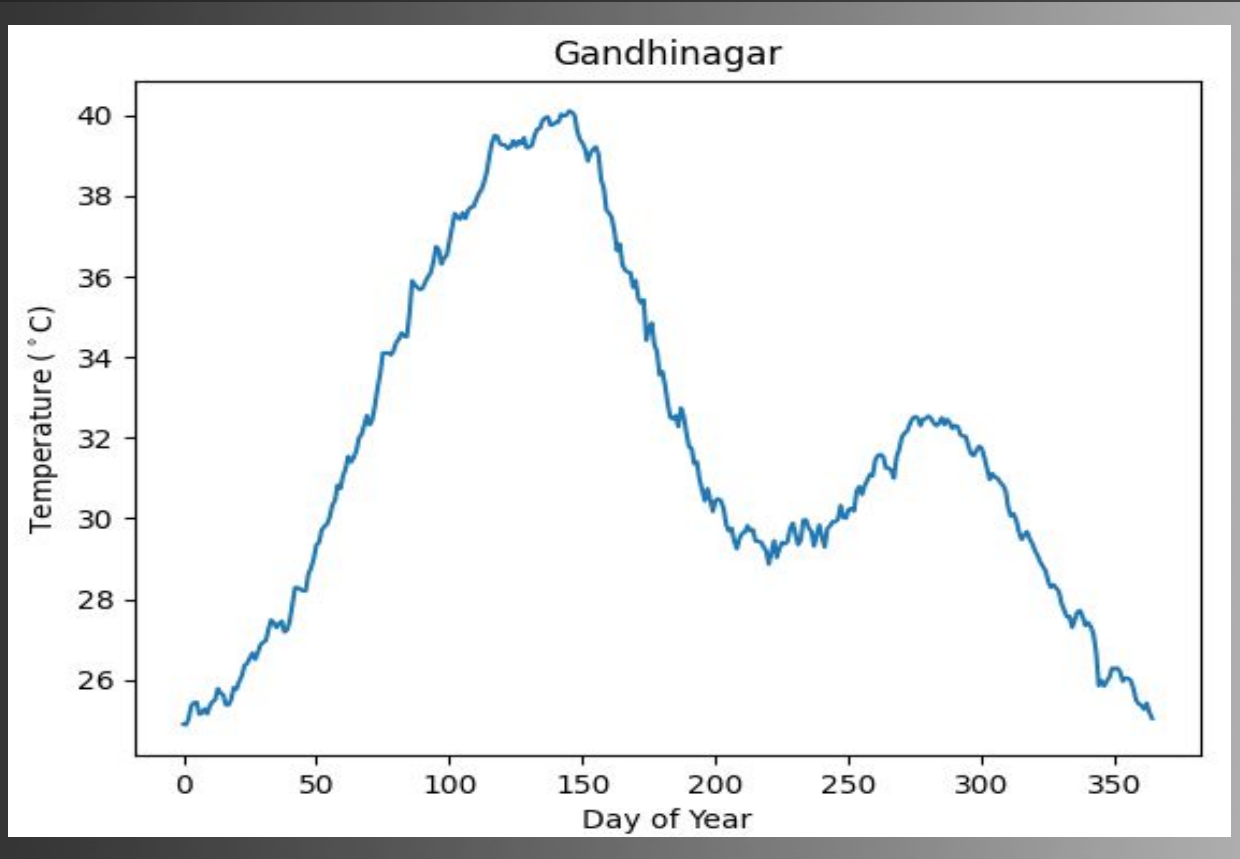

The climate in Gandhinagar is quite on the hotter side with least temperature higher than 30°C.

Unusually high average temp. was recorded in 1986-1987 (1.5°C - 2°C higher than other warm years)

1985 1990 1995 2000 2005 2010 2015 2020

# Seasonal Temperature Trends

# Observations

The temperature ranges from 26°C to 40°C.

---

The summer months are soaring hot (34°C-40°C) while winters are also not so cool (26°C-30°C).

---

The average temp of Gandhinagar (32°C) is slightly higher than Indian average of 30°C

---

A temperature dip is observed in July - August which is followed by a rise in temperature around October
