

Copy-String Example (script)

copy a string BuB where $u = (a \cup b)^*$

$\rightarrow BuBuB$

Marking strategy, which will help
us keep track of what has
been copied.

B a b B
↙

B a b B a

B X b B a
↙

if the ^{sym} char is a

- mark it
- scroll right
- skip blank
- scroll right
- write symbol (a)

if sym is b!

marker y
